OVERMAN BILL "MAKES A KING

Senator Smoot Declares the Measure Would Create Monarchy in U.S.

"If the Overman bill is passed, we may as well make President Wilson a king," said Senator Reed Smoot, of Utah, yesterday.

He referred to the bill introduced by Senator Overman, of North Carelina, allowing the President power to change, as he sees fit, any or all sovermental departments or agencies.

The bill has caused a sensation in Dongress. Even though the Senate last for but a short time yesterday and the Homs devoted its time to hearing Representative Carter Glass, of Virginia, reply to Senator Chamberiain, members of both bodies discussed the new measure among themselves.

The general expression was that the bill was "extremely radical."

Some Senators say they do not believe it will ever get out of the Judiciary Committee, to which it has been referred, and of which Senator Overman acts as ald to Senator Culberson, of Texas, the chairman. There are eight Republicans upon the committee and ten Democrats of the latter Senator Walsh, of Montana, is very ill, It is said that Senator Reed, of Missouri, and Senator Hoke Smith, of Georgia, both Democrats, are against the bill. The Republicans are expected to line up solidly against it. The Judiciary Committee will hold a meeting Monday, at which time a sub-committee will be appointed to deal with the bill.

Admission of the shortage of nurses

tendants and 130 or more trained female nurses.

The big shortage of nurses is blamed by the supgrintendent on "war-time conditions" and the general scarcity of labor. Opinions of the nursing staff differ widely from this, however. It is said that inferior board, ridiculously low salaries and unfair treatment are among the reasons for the continual exodus of employes of the hospital.

The reason for this was that they were practically oblivious to the world, or that the world at large did not recognize them. If the super-intendent had had the interest of his employes in mind he certainly would have emphatically contradicted such a statement, for, after all, who does any more for suffering humanity than those who care daily for the poor, unfortunate insane?

DANIELS COMMENDS SAILORS FOR BRAVERY

Secretary Honors Neils Anderson and Walter D. McLea for Heroism.

Secretary Daniels has commended Niels Anderson, chief machinists' mate. United States navy, and Walter D. McLes, chief machinists's mate, National Naval Volunteers, for their heroism on December 17, 1917, when the exhaust lines of the steering en-gine were carried away by the break-ing of the tiller, causing the engine

room to fill with live steam. At the first alarm Anderson went down the ladder and was driven back by the steam, but later on Anderson and McLea made two other attempts to get to the engine room to shut of the steam and on the third attempt

Railroads Clearing Freight Conges tion, Despite Heavy Snow.

Reports to Director General Mc-Adoo from the divisional directors yesterday showed a bettering of traffic conditions throughout the Eastern section of the country. Northern New York reported snow, but in most of the other localities there was moderation of the weather, the temperature ranging from about 19 above to 54 above, bringing a gradual melting of the snow. Unless there are widespread rains, the director general is hopeful of passing over the great danger of floods.
